

## City of Pilot Point, TX Operational Update Week of August 28, 2017

### Library

Over 85 adults attended the informational program about the SB4 Law the Library presented on Saturday, August 26<sup>th</sup>. The speaker was Diana Tavera from the Tellez Law Firm of Austin, Texas. The program explained the SB4 law; your rights despite status of citizenship; and places of resources to contact.

On Monday, August 28<sup>th</sup>, Sophia Fisher, a second grader at Pilot Point Elementary, was drove to school in a Pilot Point Fire Truck. Sophia entered her extra reading logs and won this as a prize in the Library's summer reading program "Build a Better World."

Next week preschool programming will begin with Storytime on Wednesday, September 6<sup>th</sup> at 10 a.m.

### **Fire**

Medic 642 was out of service for a short time Monday due to batteries. They were replaced and the medic was placed back in service. The rescue truck delivery has been pushed back to the week of September 18<sup>th</sup>. There were some delays in getting it painted.

Firefighter Chase Stanford has deployed with Northshore Fire Department to South Texas at the request of TIFMAS. They will be staffing an Engine provided by Northshore. Their initial assignment was in League City. On Wednesday they were assigned to conduct water search and rescue operations in a Harris County neighborhood with 309 homes. Thursday they were assigned to Port Aransas. We will cover his vacancy with overtime which will be reimbursed to us by TIFMAS.

### **Public Works**

Public Works crews were very busy this week (again!). They repaired a water main break on Parkway Lane at night. This required them to replace 8 feet of line.

A fiber optic company that was laying line hit a 3" water line on MacDonald Street. This required the crew to dig up concrete to make the repair. The fiber optic company will be reimbursing the City for the full

cost of the repair. Below, Matt Kaminski is using the jack hammer to get to the broken line.

Street crews completed patch work on Debbie Lane and Division Street, as well as some drainage work along Division.

### **Community Development**

The City has a number of building projects going on at any given time. The Operational Update will provide a summary each week of the various projects and a status update. A flowchart is provided with the various stages of development. A green box indicates that stage is complete, a yellow box indicates in progress, a red box indicates the project has been halted by the developer or the City and a gray box indicates the developer has not reached that phase yet.

Edgar Evans Custom Homes – Along Northside Drive – Framing complete and exterior work underway. Interior work continues. Two are finalized. Others awaiting final inspection.
